Pharmacist CE Session 1: Pharmacist Roles in Antimicrobial Stewardship, Vaccine Efforts, and Substance Use Disorder Treatment
CAPT Holly Van Lew, IHS Vaccine Task Force Deputy Lead, Indian Health Service; CAPT Kailee Fretland; CDR Anna Santoro; LCDR Nicholas Cushman, PharmD, MS, BCACP, Area Senior Clinical Program Coordinator, Northwest Portland Area Indian Health Board; LT Alexander Brorby, Clinical Staff Pharmacist, Bureau of Prisons

This session will include three parts:

Antimicrobial Stewardship: How to Win Physicians and Influence Prescribing Habits

This section will review the use of the Federal Bureau of Prisons' fluoroquinolone prospective audit and feedback (PAF) program as an antimicrobial stewardship intervention applied in a non-traditional outpatient setting. Participants will be invited to examine the importance of feedback and peer pressure in changing behavior.

The IHS Vaccine Task Force - Innovation During the Pandemic

This section will describe the innovative approach to the development of the IHS Vaccine Task Force and the operationalization of COVID-19 and Mpox countermeasures within the IHS.

Advancing Pharmacist Roles in Substance Use Disorder Treatment and Recovery Teams

This section will discuss the role of advanced practice pharmacists in substance use disorder treatment (SUD) and recovery services. Existing interventions that have expanded access to integrated, SUD treatment and recovery services and a stronger network of pharmacists will also be highlighted.

At the end of this session attendees will be able to:

1. Investigate personnel and structural resources available for the application of a prospective audit and feedback program
2. Summarize the COVID-19 vaccine and Mpox countermeasure distribution and administration impact and best practices for implementation within Indian Country
3. Describe the existing national Indian Health Service (IHS) and the Bureau of Prisons (BOP) virtual training program and program outcomes for substance use disorder treatment (SUD)

Pharmacist CE Session 2: Custom Disease Registry, Public Health Communications, Project Management, and Health Inequities
CDR Kemi Asante; CAPT Liatte Closs, Compliance Officer, FDA; CDR Jessica Fox, Chief, Pharmacy, DiLorenzo Pentagon Health Clinic; LCDR Jay Wong, Regulatory Officer, FDA; LCDR Anthony Shelton, PharmD, MSCR, Advanced Practice Pharmacist, IHS

This session will include four parts:

Pharmacist-led Custom Disease Registry Development and Quality Improvement in the Critical Access Hospital Setting

This section will discuss the successes of pharmacist-led development of a customized disease registry for atrial fibrillation (AFIB) patients in a Critical Access Hospital (CAH).

Global public health communications in social media during the COVID-19 pandemic

This section will discuss the Global public health communications in social media during the COVID-19 pandemic.

Project Management Basics: Tools to Improve Pharmacy Efficiency

This section will engage participants in enhancing their pharmacy practice with the tools and techniques of project management.

Name It to Maim It: Naming Institutionalized Racism in Pharmacy Literature to Meaningfully Address Health Inequities

This section will discuss the extent to which the pharmacy profession acknowledges and understands how racism functions at an institutional level by explicitly naming institutionalized racism in the scientific and professional literature that guides pharmacy practice.

At the end of this session, attendees will be able to:

1. Recognize the health information technology limitations experienced by many critical access hospitals and illustrate how social media platforms can be used to globally share public health information
2. Analyze organizational needs using a project management framework
3. Identify how and to what extent peer-reviewed pharmacy literature and professional pharmacy organizations have explicitly addressed institutionalized racism

Pharmacist CE Session 3: Overview of ASPR, Pharmacists' role in PHERST, and Resiliency
CDR Christina Kirby, Senior Biomedical Pharmacist, Administration for Strategic Preparedness and Response (ASPR); CDR Katie Watson, Supervisory Program Manager, ASPR; CDR Zachary Woodward, Regional Pharmacist, U.S. Coast Guard; LCDR Mirabelle Adamu; LCDR Fengyee Zhou, D11 Regional Pharmacy Executive, U.S. Coast Guard; LT Michael Idowu, Jr.; LT Jenny Sung; LT Josie Ceant, Pharmacist, PHERST

This session will be comprised of three parts.

An Overview of ASPR – The Administration for Strategic Preparedness and Response

The Administration for Strategic Preparedness and Response (ASPR) serves as the lead federal health agency responsible for helping communities prepare for, respond to, and recover from disasters and incidents that affect the strength of our healthcare system. This section will focus on ASPR's mission and its key priorities that help ensure ASPR has the capabilities and resources it needs to effectively accomplish its mission today and into the future.

Pharmacists' role within the Public Health Emergency Response Strike Team (PHERST)

This section will introduce the newly created Public Health Emergency Response Strike Team (PHERST), a highly skilled, rapid deployment team within the Commissioned Corps Head Quarters. Describe the roles and duties of PHERST pharmacists and their impacts on regional, national, and global public health emergency and disaster response missions.

The Prescription for Wellness: Enhancing Pharmacy Worker Well-Being and Resiliency

This section will focus on how individuals can practice resiliency and how organizations can foster cultures of well-being.

At the end of this session, attendees will be able to:

1. Describe ASPR's key priorities and its role during a disaster or public health emergency
2. Describe the roles of Public Health Emergency Response Strike Team (PHERST) pharmacists in strengthening Public Health Deployments and Lessons learned

2023 USPHS Scientific and Training Symposium
Agenda

3. Identify personal and organizational strategies to improve resiliency, minimize burnout, and prioritize well-being
